

Adding Drum Fills

A drum fill is a break or change in a groove. They are usually played to make a drum groove more interesting. When listening to a song you can usually hear a drum fill at the end of a phrase, such as from the verse to the chorus.

Drum Fill Exercise

3 Bars Of Groove

Drum Fill In 1's

3 Bars Of Groove

Drum Fill In 2's

3 Bars Of Groove

Drum Fill In 3's

3 Bars Of Groove

Drum Fill In 4's

3 Bars Of Groove

Mixed Drum Fill (1's, 2's, 3's, 4's)

Now try to make up some of your own drum fills.
